

NAME CASEY JONES	STOCK NO. 5151-52	PRODUCTION 1969
----------------------------	-----------------------------	---------------------------

5151B Illinois Central
 DELUXE
 5152B Illinois Central

Engine 382 of the Illinois Central was made famous in the Casey Jones ballad regarding the wreck in Vaughan, Miss., on April 30th 1900 in which its engineer, John Luther Jones, was killed.

This 0-6-0 engine was one of a group of up-to-date Ten-Wheelers built around 1896. These engines were assigned to mainline passenger service.

The engines had 19 1/2 by 27" cylinders, 69" drivers and weighed 158300 pounds.

Engine 382 was rebuilt after the wreck and was retired in the thirties.
